INTRODUCING QUICK SUMMARY:

## The AI-Powered Document Summarization Solution

Combining robust security with the time-saving power of advanced AI technology, CARET Legal's Quick Summary is an innovative document summarization feature carefully crafted to enhance your efficiency and productivity.

With AI-powered Quick Summary, law firms can navigate even the most complex documents instantly and accurately, saving valuable time and resources. It offers a wide range of applications including extracting and summarizing key terms, clauses and obligations from contracts and agreements, helping legal professionals like you more quickly identify potential risks, compliance issues or opportunities.

### TIME-SAVING EFFICIENCY

Say goodbye to information overload and save precious hours. Quick Summary instantly generates concise summaries, allowing users to quickly assess the relevance and importance of a document.

### ENHANCED DECISION MAKING

Make informed decisions faster. While Quick Summary doesn't replace a full review of a legal document, it distills and provides the essential details before a longer review is needed.

### ADVANCED SECURITY AND CONTROLS

Enjoy peace of mind with the ability to easily enable or disable this feature as needed. Quick Summary utilizes advanced AI technology that is securely implemented within the CARET Legal platform, ensuring data remains protected.

### Worried about the risk of AI?

Our dedication to control and security assures that users can benefit from this innovative technology in a secure and reliable environment. We have implemented AI into the CARET Legal platform in a responsible way, allowing law firms to try AI without any risks. This feature is powered by Microsoft's Azure Open AI and built in a closed environment, meaning your data isn't exposed outside of your instance of CARET Legal. By partnering with CARET Legal, firms can confidently embrace the future of legal practice management and stay ahead of the curve in an ever-evolving industry.

Transform the way documents are analyzed and consumed for efficient and informed decision-making with AI-powered Quick Summary. This feature is available in both our Enterprise Plus and Enterprise Insights packages.

Visit [caretlegal.com](https://www.caretlegal.com) to try it today.
